

RUSSIANS CONTINUE THEIR ADVANCE IN GALICIA; WHILE HOSTS BEAT BACK INVADERS IN POLAND

MUSCOVITES INVEST CRACOW; HEAVY GUNS BOMBARD THE FORTS

London, Nov. 30.—Germany acknowledges that the Russian northern army has penetrated into East Prussia to a distance of 15 miles south of Gumbinnen which is about 20 miles west of the German border.

German official statement says that strong Russian force attempted a surprise attack on the fortifications of Darkehmen in East Prussia, and that they were repulsed.

Petrograd, (Via London, Nov. 30 11:27 a. m.)—Fighting on the Russo-Prussian front is turning advantageously for our side, telegraphs a correspondent of the Army Messenger.

"Our cavalry has dispersed the enemy, who in retreating is abandoning his munitions of war. The energetic pursuit of our forces prevents the Germans from taking up the positions which they had prepared for their use in the event of a retreat."

Referring to the operations in Galicia, the Army Messenger says:

"All of our operations in Galicia are ending successfully for us. We continue to push the Austrian army in the direction of Cracow. In spite of the intense cold, which is delaying our offensive, we are advancing victoriously."

Several of our contingents already are abreast of Cracow, the defenders of which are being turned on the south side. The morale of our troops is excellent."

Milan, (Via London, Nov. 30 8:10 a. m.)—The siege of Cracow has begun, according to a correspondent of the newspaper Corriere della Sera, who is with the Muscovite army. He wires that the Russians are bombarding the forts with their heavy siege guns and that one of the suburbs of the city is reported to be in flames.

Battle In Poland Continues

London, Nov. 30, 11:50 a. m.)—Reference to the Russian success in North Poland have become somewhat chastened since the cautionary report issued by Grand Duke Nicholas, commander of the Russian forces in the field, was made public. Nevertheless, the military critics in the capitals of the allies, according to dispatches reaching London, remain convinced that the German invasion of Russian Poland has suffered a check which only the most strenuous efforts of the German commanders can save from degenerating into disaster.

Berlin and Vienna continue to report that the battle along the rivers Vistula and Warta is proceeding without decisive results, although minor successes attended with the capture of prisoners and guns are claimed for the Austrian and German operations.

On the western front, according to the communication given out in Paris last night, a lull prevailed except in the Argonne, where the German attacks are said to have been fruitless.

Unofficial dispatches declare that Zebruggue is again preparing for an assault from the sea with the Germans directing their activities toward the suppression of all efforts to signal from the land to British ships off the coast.

Foreign Patriotic Songs Heard In Navy By Secy, Daniels

Washington, Nov. 30.—Secretary Daniels today expressed approval of the action of Lieut. Commander F. T. Evans, commanding the navy training station at Newport, R. I., in forbidding the singing of "It's a long way to Tipperary" by naval apprentices.

Secretary Daniels said "As Tipperary" was the marching song of the British forces it ought not to be sung or played by American soldiers any more than should the "Marseillaise" or "Die Wacht am Rhein."

NINE DIRECTORS OF NEW HAVEN BOARD TO CHANGE PLEAS

New York, Nov. 30.—Wm. Rockefeller, standard oil millionaire, besought today permission of the federal court to change his plea to the indictment charging him and twenty other former directors of the New York, New Haven and Hartford railroad company with criminal violation of the anti-trust law.

Mr. Rockefeller was joined in his application for such permission by Robert W. Taft, Charles A. Broker, Wm. Skinner and Jas. S. Elton. The defendants filed pleas in abatement with Mr. Rockefeller last Monday.

Applications for permission to change their pleas were made also by D. Newton Barney, Frederick F. Brewster, Henry K. Mollnar and Gen. P. Parker.

A vigorous argument against the granting of such permission was made by Assistant Attorney-General Swacker. Judge Sessions granted permission to all nine men to change their pleas. Substitute pleas were not offered at once, however, and arguments proceeded on the original pleas in abatement.

John P. White, president of the organization said the unfinished business left over from Philadelphia also would be considered.

"The appointment of an arbitration board by President Wilson has not yet come to me officially and I have nothing to say regarding it," said Mr. White when asked about the commission. He added that he might have something for publication later.

"MUST HAVE BEEN FOR CHILDREN'S SAKE WALTER STOLE," WIFE PLEADS

Cleveland, O., Nov. 30.—It must have been for the children's sake that Walter stole this terrible thing, wrote Mrs. Walter Linton, of Ashland, to Mayor Baker in a plea for leniency for her husband who robbed the mayor's home and threatened to shoot Mrs. Baker Thanksgiving day. "Mrs. Baker does not know what it is to hear children cry for food and warm clothes," the letter continued. "She doesn't know what a hard time we have had, but she does know a mother's love for her children. It is this love, I hope will influence the mayor to let Walter come back to us."

Commercial Work Is Inconvenienced By Warships' Wireless

New York, Nov. 30.—At least twelve British warships are now patrolling the Atlantic between New York and the Panama canal, sweeping the seas with their wireless, crowding ordinary commercial radios from the air, and keeping close check on all forms of shipping, according to wireless operators on the steamship Aneon that arrived here today from Christchurch. The wireless activity of these warships, the operators said, is causing great inconvenience to the commercial work of American vessels as the high power of the men-of-war are heard continuing in after disregard of commercial business.

GERMAN WAR BULLETIN

Berlin, Nov. 30. (By Wireless to London 3:05 p. m.)—The following official statement was given out at military headquarters today:

"There is nothing of note to report from the western theatre of war."

"On the East Prussian frontier an attempt by strong Russian forces to make a surprise attack on the German fortifications east of Darkehmen failed with heavy losses to the enemy from whom we captured a few officers and 600 men."

"South of the Weichsel (Vistula river) the counter attacks which we mentioned yesterday led to satisfactory results. Eighteen cannon and more than 4,500 prisoners fell into our hands."

"Nothing of note has occurred in Southern Poland."

Pacific Squadron May Be In Atlantic

Buenos Aires, Nov. 30.—Dispatches received here from Montevideo insist that there is good reason to believe that the German squadron which has been operating in the Pacific ocean is at present in the South Atlantic. Neither the French nor the British legation here has any information to confirm these reports; nevertheless private dispatches give them credence. It is related among other things that several German steamers are preparing to leave Montevideo to provision the German warships.

Reports that the German Pacific squadron had succeeded in making its way to the Atlantic have been current for two days. Under date of November 28 Montevideo reports that the German squadron had been sighted 600 miles north of Punta Pilar, Brazil, heading northeast.

Montevideo, Uruguay, Nov. 30.—The recent report that the German fleet is now in the South Atlantic appears to have been confirmed here today. It is also rumored that a powerful British fleet is nearby.

Interruption of British shipping and the outfitting of German merchant ships with supplies were accepted here as confirmatory of reports of the approach of the German fleet, which is now believed to be off the mouth of the river Plata. The German steamer Patagonia is being loaded here with provisions, the Sierra Cordoba with coal, and the Mera with coal and water.

Sailings of British steamers from Montevideo and the Brazilian port of Santos have been suspended.

Mrs. Fannie Macquard, wife of Ed Macquard, suffered a nervous breakdown down at her home, No. 425 Front street, Friday, and is in a precarious condition.

Columbus, Nov. 30.—Governor-elect Willis will make a brief between trains visit to Columbus Wednesday while enroute to Washington.

Veterans of the Civil War who are members of the old guard of Columbus are to be the personal escort of Governor Willis when he is inaugurated on January 11. The offer of their services was made by Captain W. H. Miller and Adj. Simeon Chapman, recently to Congressman Willis. A letter was received today from the governor-elect accepting them. The old guard will be assisted on inauguration day by a drum corps from the Columbus barracks.

JANITOR UNDER CHARGES

Mount Pleasant, Iowa, Nov. 30.—J. N. Jordan, janitor of the First Methodist church, is under arrest here today charged with the murder of his 19 year old daughter, Inez, the girl died on Nov. 18 a result, it is charged, of eating poisoned panicles. Her mother, brother and the accused were also made ill at the time.

HOME RULE DECISION

Columbus, Nov. 30.—Officials of the anti-saloon league today declared they expected decisions tomorrow from both the supreme court and Judge E. B. Kinkead, of the Franklin county common pleas court, on the league's suits, contesting the home rule amendment. Recount of ballots is sought in the supreme court case and appointment of license officials in counties now dry is contested in the case in the county court.

Supl. Wayne B. Wheeler, of the anti-liquor organization, indicated today that if the supreme court decides the Secretary of State does not need to order a recount of ballots in the four most populous counties, which the dry league wants, the next legislature will be asked to pass bills providing machinery for the recount, and providing for challengers in elections on questions as well as candidates.

GEN. VILLA IS JOINED BY CABALLERO

Washington, Nov. 30.—Official dispatches today confirmed earlier reports that Gen. Luis Caballero, governor of Tamaulipas, has joined the Villa forces in Mexico.

As he is in control of Tampico, the peaceful entry of the troops which have been marching eastward from San Luis Potosi is now expected. Caballero has been claimed by both Carranza and Villa factions. Caballero has telegraphed to Gutierrez his allegiance to the Agras Calientes convention.

In a dispatch dated at Queretaro, temporary capital of the convention faction, special Agent Canova of the state department said a rumor was current that Gen. Pablo Gonzales, one of the Carranza division commanders, had proclaimed himself provisional president and named a cabinet. Canova was unable to confirm the rumor. Officials here think it unlikely.

The last dispatches dated Saturday said the city was quiet.

Double Executions Will Not Be Delayed; Harley Beard Calm

Columbus, Nov. 30.—Wesley Jenkins, colored, of Dayton, awaiting electrocution for the murder of his sweetheart, appealed to Gov. Cox today to save him from death. The appeal was contained in a letter sent to the executive offices. Gov. Cox indicated, however, that he will not interfere in the execution of either Jenkins and Harley Beard, Ironton boy murderer, Thursday night. Jenkins's letter, written in pencil, follows:

"Columbus, Ohio, November 28, 1914.
Dear Governor, again I call your attention to my case. I want you to give me a chance. I hope you don't make any mistake if ever a man was entitled to a chance I am. I have been a good sideman (citizen) for 30 years and I now (know) I can be the rest of my life. So it is a chance I want. I want and a good decision."

"Very truly yours, Wesley Jenkins."
A score of persons have written to the governor, requesting permits to witness the electrocutions. "It will gratify me and my friends immense pleasure to see Wesley Jenkins, electrocuted," wrote one man from Dayton. All will be refused.

Columbus, O., Nov. 30.—Although he has been told that preparations were going on for his electrocution shortly after midnight on the morning of Dec. 4, Harley Beard, triple murderer of the Massie family in Lawrence county, goes about the death cell as cheerily as if about to participate in a Thanksgiving dinner and in no way seems depressed.

Beard has been an inveterate user of tobacco. To a prison guard today he said: "I been using too much tobacco, but I'm cutting down on it. I think I'll quit it altogether. It's no good to nobody."

Curiously enough, Beard for some days past has found most pleasure in toying with a small electric battery, which prison officials have permitted in the place for the use of a prisoner in treating rheumatism. Apparently, unmindful of its relation to the machine which has been installed to send murderers into eternity, Beard spends a great deal of his time experimenting with the little battery and grinning when he makes it do some stunt new to himself.

The alienists have reported that Beard, while eighteen years of age, has the mentality of a child of 10 years.

War Tax Measure In Full Effect Dec. 1

Washington, Nov. 30.—The emergency war tax bill to raise \$100,000,000 in revenue goes into effect tomorrow. The provisions of the measure levying taxes on tobacco, beer and wine went into effect on November 1, and the remaining sections are effective Dec. 1. The latter include taxes on bankers, pawn brokers, including motion picture houses, owners of circuses and other shows, perfume, cosmetics, chewing gum and similar articles; commercial papers of all description, steamship tickets, parlor car seats and sleeping car berths and telephone and telegraph messages where the charge exceeds 15 cents. Stamps in denominations of from 5 to one cent are to be affixed to these articles.

Litigation Delays Board Selections

Columbus, Nov. 30.—Members of the state liquor licensing commission today denied reports that they would appoint county license officials within the next ten days for counties formerly dry under the Rose law, but made wet by the home rule amendment. It was stated that the commission has not yet begun consideration of the hundreds of applicants for the positions. New applications have been received daily from many counties.

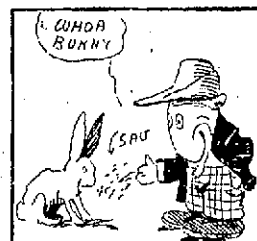

The commissioners pointed out today that the 30 day period in which the new amendment is in operative will not expire until Thursday, December 4, and that two court actions brought by the anti-saloon league and involving the home rule amendment are pending. They declared no appointments should be made until

HENRY MUST ANSWER
Washington, Nov. 30.—The appeal of Geo. G. Henry, a New York banker, from the decision of the New York courts, holding he must return to Washington to answer to indictment for contempt of congress for refusing to give information to the "money trust" investigating committee was dismissed today by the supreme court.

Mrs. Louis C. Lauter, of Seventh street, who has been seriously ill, is now reported improving.

Location Of German Cruisers Relieves West Coast Cities

Seattle, Washington, Nov. 30.—With all five of the German cruisers in the Pacific accounted for in Southern waters, the British Columbia cities of Victoria, Vancouver and Prince Rupert have recovered from the feeling of uneasiness which prevailed when the Scharnhorst, Gueissena, Leipzig, Dresden and Nürnberg were reported at several places in North American waters. The Leipzig was sighted as far north as Cape Mendocino, California, August 19, and then headed for South America. This is the nearest approach of a German cruiser to British Columbia since the war began.

Reports of naval engagements in the north Pacific persist, yet are pure inventions, according to British naval authorities. The allies' patrol of the coast continues, with the powerful Japanese cruiser Idzumo off California, the large British cruiser New Castle moving along the Oregon and Washington coast and the Canadian cruiser Minnow, which is not formidable, guarding British Columbia. The huge blue funnel liner Protoslaus, renamed the Ail, and the tramp steamer Dankelade are coal carriers for these three patrol cruisers. There are coaling stations at Esquimalt and at a harbor on the west coast of Vancouver Island. There are two submarines at Esquimalt.

I.)—The official press bureau announced today that it had received advices from Rotterdam to the effect that England was soon to send a part of her new army to South Africa. The Turkish general staff, it is reported from Constantinople denies that the Turkish army operating against the Russians is recruiting on the Russian front.

The press bureau says that the Sultan of Turkey has received a pledge of allegiance subscribed to by Egyptian notables.

WOMEN WANT MORE RELIEF

Columbus, O., Nov. 30.—A movement was started here today for the calling of a state congress of women to ask the general assembly to re-appeal all Ohio laws discriminating against women. Miss H. Anna Quinby, Columbus attorney, will ask the state convention of the Ohio Woman Suffrage association, to ratify the movement for the woman's congress. The suffrage convention will be held here next Thursday and Friday.

Among the laws to which the women object are those giving a father prior right to dictating the environment and education of children, allowing a husband to declare where his wife shall live and making her disseminate grounds for charges of desertion and preventing women from being notaries.

New Method Of Purifying Drinking Water For Troops

Washington, Nov. 30.—Army surgeons have developed a new method of purifying drinking water for troops in the field. Canvas bags so closely woven as to be water-proof, are used to carry the water and in each bag is dropped a glass tube containing fifteen grains of chloride of lime. This renders the water palatable and destroys all disease within five minutes. The bag weighs only eight pounds.

President Selects Commission To Deal With Mine Troubles

Washington, Nov. 30.—Another effort at settlement of the Colorado coal strike troubles moved forward today with President Wilson's appointment of a commission to attempt to bring the operators and miners together.

The commission will not deal with the present differences between the operators and the miners in the Colorado coal fields, but will attempt to settle similar disputes in the future. Efforts to bring about a settlement of the present strike by an agreement between the operators and miners, it is announced,

will be continued by the federal mediators who have been endeavoring for some time to adjust the controversy. They are Hywel Davies and W. R. Fairley.

The President in a statement announcing the appointment of the commission reviews in detail the various steps taken by the federal government to bring about a settlement of the present trouble. He then expresses the hope that the parties to the controversy will make use of the commission as an instrument of peace to prevent a repetition of similar troubles in the future.

ARBITRATION OF RAILROAD DIFFERENCES

Chicago, Nov. 30.—Arbitration of the differences over wages and hours of employment of ninety-eight western railroads and their 65,000 engineers began here today before a board of arbitrators appointed under the provisions of the Newlands act. It is regarded as the most important case thus far to come under the law.

In a general way it is stated that the wage increases sought by the men is about 10 per cent. They were represented in court by Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, and Wm. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers.

The railroads were represented by the 12 committees of the managers' association, assisted by legal counsel. Ninety days are allowed to present evidence, and an award is expected ten days later.

FRENCH WAR STATEMENT

Paris, Nov. 30. (2:50 p. m.)—The French official communication given out in Paris this afternoon is as follows:

"In the region of Soissons there have been an intermittent artillery fire directed against this town."

GROCCER SHOT BY BURGLARS

Canton, O., Nov. 30.—Philip Henry, 30, grocer of South High avenue, was shot and killed by unknown robbers Sunday night.

Henry had gone to his store to arrange the lights for the night. His wife was at their home nearby. She heard her husband exclaim: "I don't have any." She opened the door of their home and saw him running from the grocery towards their house. A shot rang out, Henry fell, but never recovered consciousness. The assumption is that robbers saw him in the store and demanded money; that he refused and started to run when the fatal shot was fired.

SHACKLETON'S EXPEDITION DELAYED

London, Nov. 30.—A dispatch to Reuters Telegram company from Sydney, N. W. S., states that a strike in the dock yards has delayed the departure of the Antarctic ship Aurora, which is to carry a section of Sir Ernest Shackleton's Antarctic expedition, and that the indications are that Shackleton will not start on his trans-Atlantic journey until next year.

Sir Ernest Shackleton, with a section of his expedition left Buenos Aires for the Antarctic region on the ship Endurance on October 26 last.

The expedition plans to traverse a distance of 1700 miles, from the Weddell Sea to the Ross Sea. After reaching the South pole, Sir Ernest will choose one of three routes to return, either the one taken by Scott, that taken by Amundsen, or a third crossing the Great Victoria chain of mountains. It is also expected that much scientific information will be gathered.

USE REGULAR STREET CROSSINGS

The majority of automobile accidents in cities could be avoided were pedestrians to exercise the simple caution of crossing streets only at the intersections, and not trying to cross haphazard at any old place that might suit their fancy. At the regular crossings one instinctively begins to look for possible danger, while at the same time the drivers of autos and wagons are also more on the alert, invariably slowing down. On the other hand persons who cross in the middle of a square are frequently in a preoccupied state of mind and step down into the street without paying any attention to what may be coming. Drivers of machines and other conveyances, having a right to expect that regular crossings will be used, may not be quite so alert or their cars may be going a little faster and not so easily subject to control.

What few accidents we have had in Portsmouth have been in the middle of squares and not at the crossings. Just hear this in mind and when you have occasion to change sides of a street, do so at the regular crossings. We had this rule driven home to us one time last summer when coming into Cleveland. "The driver of the car had been told to drive slowly and exercise the greatest precaution and we came down to the Hollenden Hotel as we thought in fine shape. No sooner had we stopped however, than a motorcycle cop drew up alongside. We were all prepared to receive his benediction for our great care, but instead he hopped all over our driver for running so slowly between crossings.

"Why, you drove so slow you blocked traffic," said the cop. "People only cross the street at the crossings, so you run 20 miles an hour and do your slowing down and watching at the crossings."

STATE TREASURY FACTS.

(Columbus Dispatch)

One of the campaign charges against the Cox administration was that the treasury balance was fictitious, figured so as to make it appear large when it was in reality small, or even nothing at all. Columns of type were used by the alleged experts to convince the public that the treasury surplus was a fiction, and campaign orators, even to the biggest of the lot, took up the cry that the Cox administration, by its extravagance, had wrecked the finances of the state.

Now, at the end of the fiscal year, comes the report of the state treasurer to the effect that the receipts for the year, in round numbers, were \$20,500,000, while the expenditures were \$18,000,000 and the cash balance \$5,166,480.32, the largest that the treasury has ever held.

Here is campaign argument measured by fact. And how unworthy and dishonest it is found to be. The expenditures of the state have been less than the receipts, and the surplus is greater than ever before. If any candidate won an office by willful misrepresentation of these facts, he ought to be ashamed to accept it.

A FILIPINO DELICACY.

Says Editor Sibley in the Gallipolis Tribune:

"Filipinos ate 3,000 tons of grasshoppers last year. Ever lunch on grasshoppers? Swell feeding, believe us. They catch 'em and kill 'em and dry 'em, and then they are ready for the little red line behind the taster. Kansas used to have a bonanza without knowing it in the old days when a few billions of grasshoppers would assemble on the plains. Farming grasshoppers is a profitable occupation as things go. Lawrence Hamer, of this city, who had many a grasshopper pie when he was in the service in the Philippines, tells us their taste is meagre but yellow, with or without cream."

The lecturer said, impressively: "Every time I see a young man coming out of a saloon, I want to go up to that young man and say: 'Turn right around, young man; you're going the wrong way.'"

Pete Smith's popularity is still violently on the up grade. He hasn't named his deputy yet.

Having cut out the dance, the parade, the smoker, and a few other glittering attachments of the inauguration, we await with interest the announcement from Ada that Governor-elect Willis has decided to corner the growing vote of the Ford owners by riding to the State House in a Ford.

"Dear, dear. I see by the paper where we owe England Five Billion Dollars," said the lady sitting next to us on the street car this morning. "I do hope that they won't collect it before Christmas because I know that after John has to pay our share he won't feel able to buy me a new seal skin coat as he has promised."

Time was when Mr. L. E. Johnson, president of the Norfolk and Western railroad, would earnestly seek to impress upon us the horrors of our great, flaming head lines and point to the Roanoke, Virginia, papers as samples of what meek and modest headlines should be. But alas, a change seems to have come over the spirit of the Roanoke press. The Times doesn't have anything on the Roanoke World-News on headlines these days. We wonder what Mr. Johnson is thinking right now. Has he too been converted to the modern headline?

In the interest of reducing the ranks of the local unemployed patriots we call attention to the fact that there are 59 printers, 47 pages, twelve clerks and 18 supernumeraries, besides 23 stenographers to be employed by the lower house of the next legislature, of which Representative William R. Sprague will of course annex half a dozen.

And now those former Republican worshippers at the shrine of civil service are saying that it is but a measly force intended to keep Democrats in office. While the devotion of Democratic office holders at the same shrine grows apocryphal.

Do your buying early and do it at home. And above all things, don't forget the home part. You'll help everybody in the community, including yourself by doing that.

The new 4368 lights having been placed in position, the general rathskeller effect of our rejuvenated post office is being very favorably commented upon. When we build a new hotel for Portsmouth again we will need no further recommendation of the ability of the architect responsible for the government's work of art.

Rest

I wish I was a crook
A-sittin' on a hill,
A-doin' nothin' all day long
But just a-sittin' still.
I wouldn't sleep; I wouldn't eat;
I wouldn't even wash;
I'd just sit still a thousand years
And rest myself, by gosh!

Pay

When you use up all the assets in the bank account of life,
You've got to pay.
When you use up all your energies in keeping up the strife
You've got to pay.
When you burn the candle at both ends and bat around at night;
When you guile tread the primrose path and follow beauties bright;
When you go the limit, son, no matter where you fly your kite,
You've got to pay.

For the law of compensation never has been beaten yet,
You've got to pay.
And for every fleeting joy or hollow pleasure that you get,
You've got to pay.

She is a great collector from the gay and sportive toff:
When your account is due, my son, you cannot stand her off,
You've got to pay.

GET NEW QUARTERS

The Ricker-Johnson Cigar company, which has been operating a plant in the Harry Broadbeck property, moved to the second floor of the Dice carriage factory building on Second street Monday. Increased business necessitated larger quarters.

REV. H. H. WEBB CHOSEN

Rev. Henry H. Webb, pastor of the Christian church in Covington, Ky., has been selected to deliver the annual memorial sermon to the Covington Lodge of Elks Sunday, December 8. Supplemental Petition.

The Royal Savings and Loan company, filed a supplemental petition in common pleas court Monday afternoon, in the case of the company against Caroline Schwartz, Bertha P. Schwartz, William L. and Blanche M. West, and George Heid, originally filed last week.

In the latter petition, he asks that the defendants, Bertha P. Schwartz and William L. West be found to be personally liable to the plaintiff for the amount claimed. It is averred that on April 9th, 1909, Caroline Schwartz delivered to Bertha P. Schwartz a warranty deed for the north half of Lot 156 in the Barr Addition on Gay street between Eleventh and Twelfth streets, and that on March 26, 1913, the latter conveyed it to W. L. West, subject to the mortgage held by the plaintiff. The latter deed has not been transferred to recorded, the petition claims.

Rural Schools May Secure New Course

The advisability of introducing a course of domestic science in the rural schools of Scioto county formed the principal topic of discussion at a meeting of the district school superintendents held Monday afternoon in the office of County Superintendent McCowan, in the Kricker building. The discussion, which was led by Prof. E. S. Alley, of Lucasville, closed without any conclusion being reached, but it will be taken up at the next general meeting.

District Superintendent Cromer, of District No. 2, led in the discussion of primary reading, which provoked considerable interest and interchange of opinion. A general discussion of matters of pertinent interest to the rural schools was also engaged in.

The next meeting of the school heads will be on December 18th, and will be an all-day session. In the morning they will visit the three lower grades of the New Boston schools, and their observations there will form the basis of the discussion on primary reading, which will be led by Prof. Comer.

NEW YORK RATE INCREASED

It was announced Monday by Passenger Agent R. E. Scott of the N. & W. that the fare to New York beginning December 16th would be increased from \$15 to \$17.78 and to Philadelphia from \$13.63 to \$16.53. The increase is laid at the door of the new Interstate law.

ARRIVAL OF SURVEYORS GIVES VILLAGE A THRILL

Because a gang of C. & O. surveyors swooped down on the prosaic village of Waverly Monday, unpacked their instruments, rolled a few pills and then plunged into their work, a rumor immediately gained currency that they were surveying for the new Chesapeake and Ohio Northern railway and that this company would ultimately take the D. T. & I. into its bosom and convert it into a regular railroad.

It was stated here Monday that said surveyors will work for the C. & O. exclusively in the vicinity of Waverly the next few days, thus rudely disrupting the theory that the C. & O. would absorb the D. T. & I.

SOCIAL NEWS

The choir of the German Evangelical church repeated the cantata, "Jehocub," which was originally rendered with gratifying success last winter at the church, Sunday evening. The service was crowded, and the program, lasting one hour and one quarter, was keenly enjoyed. Clyde Knost, the local favorite, now a pupil at the Cincinnati Conservatory of Music, sang the bass numbers with Miss Irma Lindemeyer as the soprano.

The chorus, 35 in number, was directed by Rev. S. Lindemeyer, and sang the ensemble numbers in a manner that reflected great credit upon the ability of the members and the director. Rev. Lindemeyer hopes to repeat the cantata a third time within the near future, with a chorus of 70 voices. The accompanists were Mrs. Philip Wickert and the organ, and Mrs. Lindemeyer at the piano.

The Markets

NEW YORK STOCKS

New York, Nov. 30.—The bullish market opened dull and listless on the New York stock exchange today, the first full day of trading of any sort since the exchange was closed on July 30. Unusual interest was manifested among brokers who thought that the two hour session of Saturday did not afford a full test of conditions and feared that there might be a general tendency to liquidate by foreign holders. Nothing of this sort developed during the first quarter hour of trading. For a full minute after the opening the ticker remained silent; not a single bond was sold. Five minutes after the opening only nine bonds with a face value of \$9,000 had been sold. The market appeared to be in a state of stagnation. The United States steel five's rose 1/8 to 99 1/4; Southern Pacific convertible four's and Distillers securities 5's were off 1/8, selling at 80 1/4 and 55 1/2, respectively. Westinghouse convertible declined 3/4 points and Central Pacific 4's declined 3/4 points. All fears of a flood of liquidation from abroad seemed to vanish within the first quarter of an hour. Indications were that the second day of restricted trading in bonds would be much like the first.

As the day progressed the bulk of the trading was in small lots, but occasionally twenty or thirty bonds changed hands in one transaction. Prices were irregular with a better inquiry for a limited number of industrials and specialties whose products have been in greater demand by reason of the war. Notable declines of the early session ranged from 1/2 to 7/8 points in Central Pacific's 4's, Chicago, Rock Island and Pacific railways 5's, Oregon Short Line 6's and Louisville 7's. Among the few advances were Interborough four half's, Penna 3 1/2's, and Lackawanna steel five's.

Altogether 46 different issues were traded in up to noon. At that time sales approximated \$550,000.

An unexpected decrease in the United States visible supply total, and the lifting of the railroad embargo on shipments to Calves resulted afterward in a quick upturn. The wheat close was strong at 7 1/2 to 1 1/4 and 1 1/4 net advance.

Subsequently when wheat began to bulge, the corn market gradually hardened. The close was firm 1/4 off to 1/2 up compared with Saturday night.

OPENING

Wheat: Dec., \$1.12 1/2; May, \$1.16 1/2.
Corn: Dec., 63 1/2; May, 60c.
Oats: Dec., 48c; May, 52 1/2c.

CLOSE

Wheat: Dec., \$1.13 1/2; May, \$1.19 1/2.
Corn: Dec., 63c; May, 60c.
Oats: Dec., 48c; May, 52 1/2c.

CHICAGO GRAIN

Chicago, Nov. 30.—Lower cables and big receipts northwest had a bearish effect today on the wheat market here. Rains were needed in the domestic winter crop belt, counted also against the bulls. The downward tendency of prices was checked only in part by signs that foreigners were actively taking cash wheat. After opening unchanged to 1/2 lower, the market rallied a little, but then sagged lower than before.

Heavy arrivals of new crop shipments gave a setback to corn. At first, however, unfavorable weather had a strengthening influence on the market. The opening which ranged from 1/2 to 3/4 higher, was followed by a decided break all around.

Outs were governed by corn. The volume of trade was moderate.

Provisions weakened owing to the plentiful receipts of hogs at the principal western centers. For the most part though selling was of a scattered character.

TOLEDO GRAIN

Toledo, Nov. 30.—Wheat: cash and Dec., \$1.14; May, \$1.22.
Corn: cash, 63 1/2 to 64 1/2; Dec., 64 1/2; May, 70 1/2.
Oats: cash, 49 1/2 to 50c; Dec., 49 1/2; May, 54 1/2.
Rye: No. 2, \$1.07 1/2.
Cloverseed: prime cash and Dec., \$9.20; Mar., \$9.45.
Alfalfa: prime cash and Dec., \$9.00; Mar., \$9.25.
Lamb: prime cash and Dec., \$2.75; Mar., \$2.85.

THE FIRST STEP in the development of personal efficiency is to put away in a safe place a portion of your earnings.

You never saw any one who had developed a great deal of efficiency, who kept his income about him in "coin of the realm."

It is most difficult to save money when its constant presence gives a constant temptation to spend.

A check drawn for every expenditure, leaving a permanent record of to whom, what for and how much—that is the efficient method of discharging obligations.

Paying in currency, thus leaving loopholes for disputes, is utterly deficient. It takes more time and costs more money to pay in this way.

REDUCE HOUSEHOLD EXPENSES! Make Your Own Cough Medicine

The difference in buying one of the most efficient, latest and up-to-date cough and cold remedies (which can be made at home), and buying the old, ordinary, ready-made kinds, is that with the new one you get all pure medicine, instead of buying a large proportion of sugar and water, besides paying for bottles, corks and labels; and it usually requires 2 to 3 bottles of the old-fashioned, ready-made remedies to break up a cough or cold, while 2 ounces (50c worth) of Schiffmann's new Concentrated Eucalyptor, which is so strongly concentrated that 2 ounces, when mixed at home with simply one pint of granulated sugar and one-half pint of water, make a full pint (16 ounces) of excellent cough remedy, and will be sufficient to probably last the whole family the entire winter. It positively contains no chloroform, opium, morphine or other narcotics, and is so pleasant that children like to take it. Arrangements have been made with drug store named below to refund the money to any person who finds it does not give perfect satisfaction, or if it is not found to be best remedy ever used for coughs, colds, bronchitis, croup, whooping cough and hoarseness. ANDERSONS' Entire Stock Of Men's and Boys' Clothing AT HALF PRICE

BEGINNING TUESDAY

We Are Going Out of the Ready-To-Wear Clothing Business

Beginning tomorrow morning we place our entire stock of men's and boys' clothing on special sale at one-half price. We have decided to quit the ready-to-wear clothing business and inaugurate this sale to clear out our stock so that other growing departments may have the room.

Thousands of dollars worth of clothing go into this half-price sale and not one garment in the entire department is reserved. You get the very finest and best garments we have—swell new winter suits, overcoats, balmacaenas and rain coats at just one-half the regular prices.

This sale includes men's work clothes, overalls, Mackinaws, etc. Think of them at half prices! Without a doubt this will be the greatest clothing sale offered in the city. Other stores have gone out of the clothing business but we don't believe any store has ever offered their entire stock at half prices to begin the sale.

Extra help to wait upon you promptly. At such remarkably low prices, of course no one can expect us to make exchanges. All prices are cut exactly in two. Come and select what you wish.

Our Reason For The Greatest Clothing Sale Ever Held In Portsmouth

Thousands of people will wonder why we are going out of the men's and boys' clothing business, and here are the reasons:

For some time past The Big Store has been using every inch of space in the two buildings which we occupy. We have no more room here to grow. We are in a sense like a plant that is root bound. But whether we have room or not some departments are growing and clamoring for more room. These lively departments can pay a better price for the space now occupied by clothing than the clothing can. So good business judgment demands us make the change.

Another reason why we are discontinuing this department is that more and more of our trade is going to the tailor made, made to measure garments each season, and this end of the business we intend to keep and foster. We will continue to be in the made to measure business as before. We will also continue our men's furnishings department the same as in the past.

"Roy Gordon is splendid." "Miss Shirley is better than ever." "It is the best production offered by the Academy Players this season." "It surely is a \$2 production at popular prices." "Fine Feathers" has taken Haverhill by storm and the packed houses at Monday's performances, when Roy Gordon, the new leading man, made his first appearance before Haverhill audiences, were the most enthusiastic of the whole season.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Weyth's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair. It darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw it through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy.

Anti-Saloon League Leaders Tell About Plans For Next Fight

Field Day was celebrated in Ohio Sunday by the Anti-Saloon League and its observance in Portsmouth brought three of the biggest men in this organization to the River City. Wayne B. Wheeler of Columbus, R. A. Probst of Cincinnati and J. Sanford of Toledo.

Mr. Wheeler, who is a conspicuous figure in the dry part of Ohio, spoke to a large congregation at Bigelow church Sunday morning and addressed a union meeting in Trinity church Sunday afternoon. R. A. Probst filled the pulpit of the First Baptist church Sunday morning and spoke in the United Brethren church in the evening.

J. Sanford addressed a large audience at Trinity church Sunday morning. The attendance was very gratifying in all the churches and Field Day was declared to be a success by the local ministers.

Declaring "at the recent defeat of prohibition in Ohio was but a temporary setback and that its defeat was due largely to corrupt election methods employed most flagrantly in Cincinnati and that votes were counted in bunches in Cincinnati instead of separately as in the law specifically prescribes, Mr. Wayne B. Wheeler, president of the Ohio Anti-Saloon League, in a rousing big union meeting held in Trinity church Sunday afternoon outlined the plans of

the league for campaign and election to be waged next year.

While Mr. Wheeler's time was limited as he returned to Columbus Sunday afternoon on N. & W. passenger train No. 15, due here at 3:10, he seized the opportunity to announce the principal features of the all-year-around campaign that is to be staged in Ohio in a mighty effort to swing the Buckeye State into the dry column. Rev. L. J. Hopper, pastor of the United Brethren church, acted as chairman of the meeting and introduced the speakers of the afternoon. Mr. Wheeler and R. A. Probst, superintendent of the Ohio Anti-Saloon League, with headquarters in Cincinnati.

Despite the fact that he was quite hoarse Mr. Wheeler injected a lot of enthusiasm into his few remarks which were characteristic of one of the most central figures in Ohio today. As he stepped up to the front of the platform he was greeted by a most enthusiastic round of applause. "I am certainly pleased by the spontaneity of this hearty reception and my one only regret is that I will not have sufficient time to talk to you this afternoon on matters which I feel sure you and all Ohio will be vitally interested in," said Mr. Wheeler.

"You are well aware of the fact that Ohio recently voted under state-wide prohibition and the liberal element carried the day by a safe and substantial majority. Well, don't feel discouraged. You know some people have to be knocked down two or three times before they come to their right

senses. We are not discouraged, that is the heads of the various departments of the Ohio Anti-Saloon League, and we feel that you are not. Had it not been for corrupt methods used in Cincinnati, Ohio would be in the dry column today," said Mr. Wheeler as he warmed up to his work.

"Now this is not hear say with me, it is the concrete truth. Ballots in Cincinnati were counted in bunches and if the top one happened to be wet, and usually it was, the whole bunch was wet. That is why the Queen City rolled up such a staggering vote against prohibition. They now have the audacity to tell us that we have no legal procedure whereby we can get a recount. Well that may be the case, but I don't think it is and we shall know on Tuesday as our request for a recount of the Home Rule vote will come up in the Supreme court of Ohio."

"Let me say this to you. If there isn't a law on the statutes of Ohio now that will enable any organization to demand a recount of votes there will be in the next five months. I can assure you this," said Mr. Wheeler, and applause followed the frank statement.

"They tell us that Ohio will never go dry. Let's analyze the situation just a little. Before the recent November election there were 45 dry counties in the state and 43 wet. Today by actual vote there are 70 dry counties and only 18 wet. Does that look like we are losing ground? Were it not for boss-ridden, corrupt Cincinnati we would not have had that iniquitous, home destroying measure termed Home Rule introduced upon us. The law is mandating to about 75 per cent of the voters of Ohio. I sometimes think that we made a mistake in voting on Prohibition this fall. If we had centered our forces and energy against the Home Rule and let prohibition go until 1915 we would have won. The Home Rule victory would have been a stepping stone to state-wide prohibition. But it is coming. It is on its way. We must not quit now. We can't afford to quit," said the speaker.

"Ninety days was too short of time in which to educate the people upon the evils of the Home

Rule and open saloon. Now that we can go about the state-wide campaign cautiously and systematically we will show them a trick or two next November. There is no doubt but what the vote was openly miscounted in Cincinnati. I know it and you know it was. Common sense tells us that no city the size of Cincinnati will show only 17,000 dry votes out of registration in excess of 100,000. What we plan to do is to make the saloon, distillery and brewery element bankrupt themselves trying to keep Ohio wet. And we will succeed. We will wear them down and we will wear them out. Keep your organization together. Keep your publicity committees at work. The battle has only begun. We intend to have Ohio honorably and willingly adopt prohibition if we have to vote long and often. Ohio was by far the largest state ever to vote on such an amendment and the fact that the dregs polled half a million votes and honest ones too, is sufficient evidence that we have not lost our fight. Keep right at them. Sorry, but it is train time and I must leave you. Remember, fight hard, keep up your neighborhood work and talk dry all the time," admonished Mr. Wheeler as he grabbed his coat and hat and was whisked away to the N. & W. depot just a few moments before his train pulled out.

"Do you know why Cincinnati rolled up such an appalling vote against prohibition?" asked R. A. Probst, after being introduced by Rev. Hopper. Well, I will tell you and you can see for yourself as every statement I will make to you can be substantiated," said Mr. Probst.

"I will tell you why Cincinnati voted so heavily wet, it was because of the highway methods the politicians used to elude the drys into line. Would you believe it that in a certain precinct in the heart of Cincinnati a well known citizen actually voted ten men at the point of a revolver. Before they reached the voting place the leader of the men was asked if the men were wet. He replied that they were all dry. Then it was that he pulled his revolver and openly stated that if they didn't vote his way, wet, he would shoot them to pieces as they left the voting place. And the leader of these ten men admitted to me that to save their lives they voted as directed. Now I know you, who are skeptically inclined, may not believe this bold statement, but it is the truth. I have in a desk in my office in Cincinnati the affidavit of the leader of these ten men that they were told this by a citizen unless they voted against state-wide prohibition. Why if they had used these methods on the plains 20 years ago blood would have been spilled and murder committed. Yet Cincinnati, the second largest city in Ohio, got away with this kind of intimidation at the recent election. And that was not all. They counted the votes in bunches as Mr. Wheeler told you and they were all counted wet. Many times the votes were not even counted. They lumped them and called them votes for the Home Rule and against state-wide prohibition. Cincinnati was blamed before the election and is blamed after the election for keeping Ohio in the wet column.

"I want to say to you people that if Ohio votes dry next November, and she will if we get a square deal that is coming to us, the United States will go dry in five years. Oh, you are coming to it, that is all there is to it. Ohio is by 100,000 votes the largest state that ever voted on state-wide prohibition, and as soon as we win in the Buckeye state we will carry all the other states. At the November election 7 states voted on the anti-saloon amendment and five of them voted out the nefarious open saloon. That doesn't look like we are losing ground," said Mr. Probst.

"I want to take this occasion to compliment the men who were at the head of the dry campaign so vigorously waged in Scioto county. But for a little overconfidence and over-enthusiasm you people here would have voted dry. Next time I feel sure it will be different. I have no criticism to make. Keep your heads up and talk dry. Our forces are intact; we are on the firing line, and when the big guns of the Anti-Saloon League begin to roar and boom the enemy will with away. Marshal your forces and keep them intact. Defeat always paves the way for victory. We will have to win the next time. The open saloon, breweries and distilleries are on the run. We will drive them out of this and that state and eventually into oblivion. Oh, hail the day when America wakes up with not a single open saloon, brewery or distillery in its fair land. We are coming to it, slow, but sure," said Mr. Probst, who is a splendid talker. "When we reach that golden period we will not have so many unemployed church pews. We will have to build more churches to take care of the thousands who will wander back to the church."

Our plan in Cincinnati to combat the illegal and high-handed, yes cut-throat methods pursued there by business men, bankers and politicians, is to organize a dry force of 5,000. We now have a force of 1,200. Each man is to pledge himself to get three dry votes. This method will cut down the overwhelming majority in Hamilton county by 20,000, and this done, the rest will be easy. It is all going to work out handsomely by next November," said Mr. Probst, who admitted that he was formerly engaged in the elevating pursuit of educating Young America.

To Cure Catarrh Purify the Blood

Reason it Out, Where Does it Start the Mucus From?

Unnumerable catarrh sufferers have cured themselves by purifying their blood with S. S. S. Catarrh often invades the entire system before it strikes the nasal passages. It becomes so chronic and extensive that the stomach, liver, kidneys, bronchial tubes and most of the glands are involved without most violent catarrh being realized. Catarrh may be the result of some serious blood trouble of former years, and this is only one of the many possible effects of impure blood. S. S. S. in its influence upon the various causes, causes those catarrhal secretions to be changed or converted into a substance easily expelled, and getting rid of it. It is not a purgative, it is a blood purifier. It changes this mucus that is not the proper, cleansing stuff that plugs the nose, chokes the throat, causes sore throat, inflames the stomach and contaminates the food just entering the blood. It is often difficult to convince catarrh sufferers that chronic cough, chest pain, sneezing, cold breath and other symptoms are only the local evidence of deep seated trouble. Get a bottle of S. S. S. today and try it. You will not get good results until you are well and soon be aware of a gradual clearing up and a check to the progress and danger of catarrh. Avoid stimulants. S. S. S. is prepared only by The S. S. S. Co., 61 Swift Bldg., Atlanta, Ga. They conduct a medical department for free advice that is worth while consulting.

PROPOSED CANAL MEANS MUCH TO PORTSMOUTH AND OHIO RIVER CITIES

Steps toward providing funds ways, thus enabling shippers to reach half the nation by means of interior waterway navigation. Of the 103 miles of the proposed canal 51 miles will be the deepening of the Beaver and Mahoning rivers. The remainder necessitates the construction of a new canal. When completed it is proposed to use barges self-propelled on the canal and the Ohio river and the many other waterways directly connected with this chain. One of these barges will carry 4,000 tons.

According to Mr. Patterson, with the completion of the canal the population of all towns along the proposed waterway route, including the Ohio river, will be doubled within fifteen years.

Through the efforts of Senator J. I. Hudson of this city, and the members of the Pittsburgh men, a bill was recently passed in the Ohio state legislature permitting counties along the proposed route of the canal and the various waterways, by referendum to bond themselves as a medium of providing funds for the proposed canal.

Great significance is attached to the successful completion of this canal. According to Mr. Patterson who is an enthusiastic advocate of the movement, and in fact anything that pertains to the improvement of the country's waterways, it means an immense increase in the river traffic locally, the reducing of freight rates all along the river and a general impetus of prosperity for river towns and towns along the route of the canal.

With the completion of the canal twenty-four states will be connected by navigable water-

Scioto county has been allotted twelve members in the association which is headed by Ex-Mayor Wm. A. Magee of Pittsburgh. These twelve members are to be representatives of all parties and lines of business. A meeting of the association is planned for February in Pittsburgh. At that time each county will be assessed its portion of the expense and plans will be made for the calling of an election next November to vote funds for the proposed canal.

Master Richard Barton, who has been seriously ill for the past two weeks, is reported better.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise care The Daily Times, Portsmouth, Ohio.

Dear Miss Wise—I am a 14 years old. I was born at 8 o'clock, October 7th, 1900, and won't you please state in tonight's Times how many hours and minutes I have lived?

ALICE.

I can't tell you the exact number of hours and minutes, as you failed to state whether you were born at 8 in the morning or 8 in the evening. However, counting up until last Saturday when I figured out your question, you had lived 123,984 hours, or 7,439, 640 minutes.

Dear Dolly—What should you say when you accidentally bump into someone else on the street?

JOE.

Say, I beg your pardon, or pardon me. Don't forget to raise your hat also if you bump into a lady. It might be a good idea to watch where you are going and you won't bump into anyone.

Dear Dolly—I am a young man of 21 and so far have never kept steady company with any girl. I would like very much to keep company with a girl I know but I don't know how to go about it. I don't want to get turned down. This girl works in a store on Chillicothe street and treats me real nice, but I don't know if she would let me go with her or not. I have would be a nice way to find out?

HEN.

There are very few men who haven't been "turned down" not only once, but quite a number of times before finding the right one. Would suggest that you just happen along at the store about quitting time and walk home with her. Then you might invite her to go to some place of amusement, and finally ask to call on her. That's easy enough, Ben. If she refuses you, why ask again and again, that's all. Don't get discouraged. Remember a faint heart never won a fair lady.

Dear Dolly—Please tell me what causes colds and fever

chillisters and what will cure them? MARIE.

They usually follow a cold and are caused by the slight fever that sometimes accompanies a severe cold. Use either camphor or peroxide in a weak solution and bathe frequently when first making their appearance.

Dear Dolly—My husband is awful bad to swear and I dislike swearing very much. Will you please let me know how to get him to quit swearing?

MILDRED.

Just give him to understand you will not permit swearing in your presence. That's the only way I know to stop him.

Dear Dolly—When returning from an evening's entertainment should I ask my escort in? My mother says this is not necessary.

LOUISE.

I agree with your mother that it is not the best thing to do, as it is usually late enough to retire when one gets home from an entertainment.

Dear Dolly—I am a girl of 18 and do not keep steady company with any one boy steady. I used to have a steady and we didn't get along very well, so I took your advice about girls keeping steady company and find it a great deal better. I now go around with all my boy friends and have a much better time.

GRETCHEN.

I am glad you appreciate my advice, Gretchen.

Dear Miss Wise—I am to be married soon and want to know what to serve at a wedding dinner, not too expensive. In serv-

ing wine should you have the wine put into a large lemonade bowl or serve it in glasses? I mean in a bowl from which people can help themselves. This is what one friend suggests. I think if I do that some would drink so much that they would see colors, and then others would not get any. Which would you advise me to do?

BRIDE-TO-BE.

How would this do for a menu? Raw oysters, clear soup with croutons, halibut steak with sauce tartare, French fried potatoes passed with the fish, broiled sweetbreads, roast chicken with stuffed tomatoes, and rice croquettes, salad, crackers and fancy cheese, ice cream and cake, black coffee. Have the conventional "hors d'oeuvres"—olives, salted nuts, etc. This is not an elaborate dinner, as such repasts go. It may be prepared by any good plain cook. Wine is never served in a punch bowl, but poured from the bottle into each glass by the waiter. Claret cup and punches of divers sorts may be poured from pitchers. It would not be "good form" to set a big bowl upon the table and invite guests to dip into it at pleasure.

Maud—I really don't know unless you can coax him to stay at home once in awhile, or go with him when he goes out.

Dear Dolly—Please print a recipe for potato salad.

A READER.

One egg beaten well, $\frac{1}{2}$ cup each of sugar, vinegar and but water and butter; onions to taste and one quart of mashed potatoes. You can cut the potatoes in small pieces instead of mashing them if desired.

Times Service Pattern 1120

1120. A very becoming gown in over blouse style.

Excellent lines mark this stylish dress of wool crepe and black satin. It will look equally well in any of the lovely Fall shades of luffets or corded silk. In less expensive materials, combinations of checked wools, striped and plaid suitings, with serge or cashmere would be very nice. The model is splendid for slender youthful figures. It has many good style features. The skirt may be of lining above the flounce and the sleeves stylish with its jaunty cuff, but will look just as well in short length. The underwaist may be overlaid with lace or net to form a chemisette. Pointed revers and a smart high collar form a very attractive neck finish. The gathered tunic is cut on newest lines and is most graceful. The cape back on the overblouse is most unique and effective. This tunic and overblouse are finished separately and may be worn over any suitable skirt and waist. In this way one could have a combination that would make two different gowns. In crepe meteor, chiffon crepe, balis and other evening fabrics this model would develop splendidly. One could have a chiffon overblouse and tunic with charming underdress, without the chemisette. The pattern is cut in 3 sizes: for Misses, 14, 16 and 18 years, and in 4 sizes for ladies: 36, 38, 40 and 42 inches bust measure. It requires 6 1/2 yards of 44-inch material for a 36-inch size, or 4 1/2 yards for tunic and overblouse and 2 1/2 yards for sleeves and flounce. Two yards of lining is required for the skirt.

A pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

Orders for patterns are forwarded to New York to be filled, hence it requires several days for the pattern to reach the purchaser. Patterns can not be ordered by telephone. Do not use postage stamps for larger denomination than two cents.

Medals

SOME folks have medals hung all over them and then it's hard to believe that they are heroes. They are the folks who need a sign on them to make the public believe that they are real men. They might be mistaken for fence posts.

And then there are other men who have medals on their manly breasts but who look the hero all over. You look right past the gaudy baubles and see the real worth behind them. They are men who count.

And then there are men who never happened to do anything noble when the limelight was turned on them but who are heroes in everyday life. You can tell them when you look them in the eye. They have no medals but they carry their own mark of merit with them.

Happy is the man who can recognize real merit from sham. You can hang medals all over a man but if he isn't a real man they will look like a porcupine's quills on a hepen.

It takes the same kind of discrimination to pick the shoes of merit. You've got to look past the advertising to the stuff itself. It's got to make good. And you'll find BAKER shoes make good. Make me prove it.

Rev. Brooks Given Warm Welcome By His Loyal Church

Rev. C. S. Brooks, pastor of the First Christian church, need not worry about his popularity with members of his congregation. The esteem in which he is held by his parishioners was placed in concrete form Sunday when they tendered their pastor a real ovation.

Rev. Brooks has just returned from Detroit, where he conducted a remarkably successful revival at the Central Presbyterian church. When he arrived at his church Sunday morning he was politely invited into a side room by Charles M. Howland, superintendent of the Sunday school. This

was a clever ruse and enabled the congregation to get hold of their kerechiefs as when Rev. Brooks returned he faced several hundred of them. It was the Chautauquian salute and Rev. Brooks was much affected by it and the spirit which prompted the cordial greeting.

Sunday was a great day at this church. It was sort of a love feast arranged in honor of Rev. Brooks' return from Detroit. The attendance was unusually large and Rev. Brooks delivered one of the most inspiring sermons he has made in many weeks, according to those fortunate enough to have heard it.

Spider Is Cause Of An Auto Accident

A menial little spider spoiled a pleasure drive for Ed Strittmatter, of the Grimes-Strittmatter Grain company Sunday afternoon.

Mr. Strittmatter was moving leisurely along a West Side road when at a point near Dry Run a spider got in doing "aerobic" stunts before his face. Ed made a wild pass at the spider with his fist and the next instant found himself and car over in a ditch. A spring was broken and the mud guard bent and the car had to be towed back to the city.

The spider escaped unharmed.

OKLAHOMA'S COACH LAW

Washington, Nov. 30.—The supreme court today announced through Justice Hughes that the separate coach law of Oklahoma was invalid, in so far as it allowed the furnishing of sleeping parlor and chair cars only to white persons. The court did not issue a decree because the suit to enjoin the enforcement of the statute by five negroes had been too general in setting up the rights of the negroes.

Anderson Bros. Make Changes

Announcement of their discontinuance in the clothing business was made by The Anderson Bros. Company Monday. For some time it has been imperative that the firm secure additional space for departments that were badly overcrowded, and this condition resulted in the firm arriving at this decision.

It will continue its general furnishing goods and shoe department, and also its complete hat department. The firm for sometime has

carried on a profitable business in its tailor-made suit department and it will be continued and carried along more vigorously lines in the future. The space to be gained by the closing out of the ready-made clothing department will be utilized by a complete children's and infants' department and the art department. For some time the firm has been especially desirous of enlarging its art department, which has grown beyond their most sanguine expectations.

"UNCLE TOM" CLOSSES

Is the show business on the blink? We should say so. Think of Stetson's Uncle Tom's Cabin trucking away its scenery because Colonel Poor Business camped on its trail. Time was when this show always picked up whatever loose change there was in the show business. When Uncle Tom, at popular prices, fails to cop the coin, the show game is certainly on the blink for fair.

The Boy Scouts

(By Russell Williams)

One of the best hikes in the history of Scout work in Portsmouth was pulled off Saturday when fourteen boys, led by M. H. F. Kinsey, Cary Williams and Francis Knapp, biked to McDermott, via Lombardsville and Arion, passing through some of the most rugged and wild country one would wish to see. We left Portsmouth at 7:35 a. m. and went up Carey's Run to the famous "Cut Rocks," where Captain Carey and his men were massacred many years ago by the Red Men. In this region the hills had been burned by some very bad forest fires. Scout Master Williams and Scout Shumway left the bunch and went into the hills to fight fire. After waiting sometime for these promising young firemen at "Cut Rocks" we had decided that they had gone up in smoke, and we proceeded on our journey. About a mile further on we met a farmer driving an old nag in a dilapidated buggy (the farmer was in the buggy, not the nag). He told the advance guard that it was twenty miles to Lombardsville. The main bunch was only a hundred yards behind us, but he told them they were twenty-five miles from the aforementioned metropolis. At about half past four heavy fire fighters overtook us. They told wonderful tales of how they put out a burning creek, and saved a man's well from destruction by smoke.

About a mile further on we left the main road and took a trail leading over the hills. When we stopped for dinner we told scouts Shumlin and Holt that we were wearing the large city of Lombardsville, and stuffed them to our hearts content with stories of sky scrapers, and street cars. Their fond expectations of moving picture shows were blasted when they found that Lombardsville consisted of three houses, a threshing machine and two milks.

It was here that Cary Williams, Harold Shumway, and Scout O'Huark found that by taking the Hayman road, they would get to Portsmouth in time to meet "her" down the street at 7:00. That was the last we saw of those three gents. We had the honor of being the first pedestrians to traverse the new road between Lombardsville and Arion. The soft dirt of this new road appeared to Sir Knapp's sense of comfort, so he took off his shoes and walked barefooted, or rather "sock footed" to Arion. Fortunately for me I had a bad cold in my head.

Our fellows made quite a raid on the village store at Arion, and soon got rid of that extra nickel which had been burning their pockets ever since they had left Portsmouth. We waited at Arion until the weary ones had gotten a good rest, and then hit the ties for McDermott, reaching there shortly after dark. Scout Mills had been bragging all the way along about the fifty cent supper

he would get at the McDermott Hotel, and Scout Lowrey of a friend in the burg who would most certainly invite him for a good hot meal after such a long tramp. So, on arriving these brave young scouts after brushing the surplus mud and dirt from their khaki uniforms, made their way to the McDermott Hotel where they found a dance in progress. But nothing would phase them now, so entering the spacious lobby and reception hall, they dodged the happy dancers, and soon found the proprietor who informed them that there was only one vacant place at the festal board that night, and that rather than show partiality he would let them draw straws. About then "Lowrey's friend" spied him and nothing doing but that he should dine at this famous hostelry. This settled the matter as to who would win that vacant seat, so Mills liked for the only restaurant in the town, where he got filled for the small sum of twenty cents, having thirty cents left to blow in at the grocery. The joke was on Lowrey after all. When supper was announced and he saw that vast throng of dancers eluded in evening dress he looked down at his much worn uniform, and the more he looked the less desire he had to eat, and before the dancers had seated themselves Lowrey biked for the tall timbers, or rather the Town Restaurant.

We rested at one of the stores until the 9:00 o'clock train rolled in to carry us back to Portsmouth. Foot sore from our long hike but every mother's son happy. We left Portsmouth at 7:35 a. m. and arrived at McDermott at 6:15 p. m.

This is the first of a number of endurance hikes which will be taken by Portsmouth scouts this fall and the coming winter. The next will be to Gallipoli via Oak Hill.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us the indigestion is caused by hyperacidity, meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten soon in the stomach much like garbage in a can, forming acid fluids and gases which inflame the stomach like a "to-blowing." Then we feel a heavy, humming in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or anorexia. He tells us to lay aside all digestive aids and instead, get from any pharmacist, four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and while it is after evening and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is a mixture and is made from the acid of grapes and lemon juice combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

WILL WIND UP AFFAIRS OF THE DEFUNCT UNION

According to a well defined rumor there is no intention on the part of the general officers of the United Shoe Workers of America bringing any criminal action against Frank Sly, treasurer of Joint Council, No. 9, U. S. W. of A., who confessed, publicly, that he had appropriated half of \$200 of the Council's funds to his own use. Of the sum drawn out of the treasury, Sly stated that he had given the former business agent, Henry Riddle, one half. It is also said that none of the former members of the organization desire to press any charges against Sly, for they are of the opinion that there was no criminal intent on his part when he appropriated the money to his own use. It is also said that \$2.00 which remained to the credit of the organization at the Valley bank, was drawn out by Sly, who, it is said, was turned over to Riddle.

Word has been given out that General Organizer Carter Dean, who was present last Wednesday, when Sly confessed to having drawn out the money, received a telegram from headquarters to proceed to Cincinnati, and there order Edward Keenan, business agent for the U. S. W. of A., to proceed to Portsmouth and dispose of all the furniture belonging to Joint Council No. 9 and to divide the proceeds among former members who were still without work. Mr. Keenan is expected to arrive here not later than Tuesday, when he will offer the furniture for sale. It is thought the furniture and fixtures will bring close to \$200, as it is in good condition and cost more than \$200 when installed last July.

It has been learned that the charter list, together with all books, have been surrendered to the national headquarters, who have declared Joint Council No. 9, U. S. W. of A., defunct. The property belonging to the council was shipped to headquarters by William Montell, one of the three members in good standing. Nothing has been heard of William J. Casey, business agent, who left the city for parts unknown several weeks ago.

NERVOUS CHILDREN

Children are nervous because they inherit a tendency to nervousness, because they are overworked or because they are run down physically.

Whatever the cause, nervous children need careful management. Scolding does no good and most forms of punishment are harmful. So that the patient does not overwork or overeat, give good nourishing food, or, if necessary, a dose of Dr. Williams' Pink Pills for Pale People. These pills are the tonic for each case, harmless, sugar-coated and easy to take. As the tonic treatment builds up the child's nervous strength there will be no temptation to scold. When nervous children get in "tantrums" put them to bed, whatever the hour of the day. If the paroxysm continues, give the child a warm bath and return it to bed. And persistently to the treatment with Dr. Williams' Pink Pills, the nourishing food and the exercise. It is surprising how many nervous disorders are corrected by building up the blood. Even St. Vitus' dance will yield if you are faithful.

A book on Nervous Disorders will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. If you mention this paper, your own druggist sells Dr. Williams' Pink Pills.

Boy Robber Sent To Reform Farm

After having confessed in juvenile court to robbing the J. M. Adkins store on Union street Friday night, Goodlow Williams, aged 16, was sentenced to an indeterminate sentence in the boys' industrial school at Lancaster by Judge Beatty, Monday morning. Young Williams was arrested by the police Saturday afternoon, after evidence had been unearthed connecting him with the crime. He made a confession to the police, but the case was one within the jurisdiction of the juvenile court.

The lad hails from Mt. Sterling, Ky., but for the past few weeks

has been staying at the home of Harry Walker, of 14 Union street. He was in New Boston on the night of the robbery, and alighted from the car at Ninth and Chillicothe streets, instead of Second and Chillicothe streets, according to the police.

Entrance to the Adkins store was effected by removing a pane of glass from the rear window and unfastening the window latch. The stolen articles included trousers, shoes, a watch and chain, and other minor articles. All but the watch was recovered. Williams claims he threw that into a cornfield near the river, but a search failed to reveal it.

WOMAN WAITED WITH A GUN

Herbert Pearson, a well-dressed negro claiming Baltimore as his home, who was caught trying a key in a side door of the J. B. Coriell grocery on Gallia Pike Sunday noon, was fined \$10 and costs for loitering and paid out. Mrs. Coriell lay in wait inside the store armed with a gun and prepared to shoot the negro, while her son Walter trailed him until police were sighted and placed him under arrest.

John Arch, who was charged with exposing his person, forfeited a \$10 cash bond. Olea Leffner, John Kitchen and Frank Victor, plain drunks, drew \$5 each.

FIEND KILLS THREE

Asheboro, N. C., Nov. 30.—Lowe Daniels, charged with killing his sister, Cora Daniels, his sister-in-law, Ethel Luther and Edgar Varner, a visitor, and probably fatally wounding his wife, at their home near here on Saturday night, today was taken to the scene of the crime for a preliminary examination.

Popular Joe Dill Crosses The Divide

After battling bravely for several months against the ravages of tuberculosis, Joseph Dill, 45, prominent colored resident of the North End, passed away at Hampstead hospital, Saturday afternoon. Mr. Dill was one of the most popular members of his race and a hale fellow well met. For the past two years he had conducted a saloon on Eleventh street and was a man of the strictest integrity. He was removed to Hampstead hospital one week ago, following a fire at the home of his father, John Dill, Tenth street.

Besides his father, he leaves one brother, Augustus Dill, business manager of the Crisis, published at New York City, and two sisters, Mrs. Mary Brooks of Louisville, Ky., and Mrs. Elizabeth Brown, of Baltimore, Md., and a baby half-brother, Stockton, who lives at home.

Mr. Dill was born at Blacksburg, Va., and came to Portsmouth about 25 years ago, where he has since resided. He was a member

of Harmony Lodge, No. 33, Knights of Pythias, and the funeral, which will be held Tuesday afternoon from Allen Chapel on Seventh street at one o'clock, will be conducted under the auspices of that order. Rev. John Irving, pastor of that church, will have charge of the services.

REMARKABLE DESCRIPTION OF THE CONDITIONS IN BLOODY MEXICO TOLD BY A REFUGEE IN CITY

NEW STORY GIVEN ABOUT THE DEATH OF PRESIDENT MADERO

A graphic description of conditions in battle-torn Mexico was given to The Times by Rev. John Hagel, an exiled Catholic priest from that unfortunate country, who stopped over here Sunday en route to North Carolina to join the Benedictine fathers under Bishop Held in that state.

Still wearing the garb of a common laborer, cap, blue working shirt and overalls, Father Hagel, who is past fifty years of age, a German by birth, looked sad and dejected as he recounted the terrible plight of those he left behind him, when three weeks ago he was given a half hour's time by General Emilio Zapata in which to quit the town of Salinas Cruz.

Refugee Had To Live On Cactus

Donning a white outfit and a sombrero he mounted a broncho and struck out on his overland journey to the States. He passed over his own sufferings lightly and only when pressed for details of his long and wearisome trip, did he say that he subsisted chiefly on prickly pears from off cactus plants. After crossing the Rio Grande river into El Paso, Texas, he received financial assistance, and was thereafter able to travel by rail.

Nuns at Mercy of Soldiers

Father Hagel's parish church at Tehuantepec, Oaxaca, near the Central American border, and which was commonly referred to as "the American church," was destroyed by Zapata's band. The parish comprised 4,000 souls, 850 school children and 60 nuns. The latter who were Sisters of the Immaculate Heart of Mary, with their mother house located in Spain, were stripped of their garments, outraged and forced to march nude through the streets and then cast into dungeons, there left to their fate. Sister Magdalena, who was but 10 years old, after being outraged by the bandit soldiers, was left to die in a terrible agony on an ant hill where a few days later her bones were found.

Father Hagel said he and his charges had had an opportunity to leave some time ago, but had decided to remain and work and practice charity among the people of that community. Only the fact that he was a German caused him to be spared, yet he was banished from the midst of people among whom he had labored for 27 long years.

Zapata is a Bloody Pirate.

Zapata, at the head of an army of 12,000 men, said Father Hagel, has been in absolute control of the southern part of Mexico for the past few years. All mail matter is censored or destroyed by Zapata, whose authority is supreme and to incur his enmity meant to be shot. A relentless warfare has been waged against religion and before college or university students can hope to acquire any positions of worth they must first give up their religion. He said such Episcopalian, Methodist and Baptist missionaries who did not avail themselves of the opportunity of leaving with their families are regarded as "better treatment than Catholics, living in Mexico was not so bad.

Tells About Madero's Death

Regarding Madero's assassination, facts had never been published. Father Hagel said the real

dent, did not divide the lands to the satisfaction of some of his followers and they rebelled against him. A committee was sent to him to demand his resignation. The spokesman was shot and killed by Madero. A second officer who dared remonstrate with him suffered a like fate. The third and sole survivor of the committee

Why Villa Hates the Spanish

Villa is a bandit, he said, who used to be a peon of a Spanish master. This master, when Villa was 14 years of age, outraged Villa's 12-year-old sister. Villa killed his master and has had bitter hatred for the Spanish and all foreigners ever since. He can see nothing but continued strife and bloodshed in a union between Villa and Zapata and thinks Mexico's only salvation lies in intervention by Uncle Sam. He said the warring natives do not want peace, preferring to roam about and pillage. They have a bitter spirit and it will require much time and trouble to educate them to a life of industry and morality. They will continue their guerrilla warfare until most of them are killed off and the rest subjected.

Father Hagel said President Wilson was blamed by many for

ice, seized a chair and brained Madero, killing him instantly. The dead body was dragged from his office, placed in a carriage and soldiers later riddled it with bullets.

Speaking of Carranza, the exile said he was an educated man, had served as governor of Coahuila, but that he favored the old peon system.

his Mexican policy but said his stand was doubtless due to the world wide propositions that are involved. The evacuation of Vera Cruz by the American army, which the better element hated to see leave for the moral effect caused by the presence of the soldiers to say nothing of the way they cleaned the city, was directly due only to one thing. It had come to the point that Villa, Carranza and Zapata demanded that they be left undisturbed in trying to work out the country's salvation and for the American soldiers to get out. To defy them meant war and this Wilson is trying to avoid. So Vera Cruz was evacuated and while thousands of American dollars are going to waste and Americans being butchered and martyred you will have to say Bonum Publicum (public welfare) first.

Speaks of the Yellow Peril

"For the United States to stop in and wage warfare upon Mexicans," said Father Hagel, "would probably arouse the other Latin countries against her and it is with Central America and South America that our main commerce of the future lies." He recalled the significant statements of different United States naval officers with whom he had talked at Salinas Cruz. He would ask them why it was that Uncle Sam stood idly by and did not raise a hand against the "clutches of American citizens and invariably they would reply that the Panama canal would have to be completed first, for the first move of the little yellow men would be to seize the Philippine Islands. They referred to the danger of Japan lining up behind Mexico. For years past along the western coast there have been approximately 60,000 Japanese engaged in cultivating little farms of from 60 to 100 acres which undoubtedly are really owned by the Japanese Empire. These colonies are replaced every three years by a new set on from their general bearing are selected trained soldiers and thus it will be seen the Mikado has obtained a foothold on the American continent.

Rival Oil Interests Cause Wars

Father Hagel said that intense rivalry between English and American oil interests was responsible for the present unhappy state of affairs in Mexico. Former President Porfirio Diaz had granted American capitalists certain concessions at Tampico and Frontera for which he was personally presented with \$50,000,000. An English syndicate gave him a like amount for similar concessions and its proved to be the last of his land. The American capitalists thoroughly aroused, decided upon the overthrow of Diaz and to that end financed Madero's revolution. Diaz took the \$50,000,000 with him to Europe. It was now the English's turn, they producing Huerta and this is the reason the Washington government never recognized Huerta as president. American capital ranks first in owning Mexican property, England is next, and Mexican capital third. The resources of the country are simply wonderful.

Condition of the Peons

The silver mines of Catave located 12,000 feet above the sea, give employment to 45,000 men. Many churches have walls of solid silver plate. The famous shrine of Guadalupe which was looted by bandits alone had furnishings worth \$5,000,000. But things

ed in Texas and other states and after returning to their own country, naturally revolted. Peons sleep with their horses, goats and sheep all in one pile and often 5000 and 6000 on one place and the women are at the mercy of the land owners.

Morality is at a low ebb among this down trodden class.

Father Hagel is quite a linguist, speaking German, English, French, Bohemian, Spanish, and Polish, and several other languages. He has a brother in Wurttemberg, Germany, who is also a priest. The exiled missionary was furnished with transportation to North Carolina by Rev. Fathers J. B. McGuirk and T. Gobel. He was the guest of Father McGuirk during his brief stay here.

Nemo Corsets in Sizes up to 44

Style and Economy For VERY LARGE WOMEN

We have inaugurated a new special corset service for stout women, particularly for those who are "over size"—who need corsets larger than the regulation size. This is our plan:

Now and then (beginning tomorrow) we shall devote a "day" to making stout women corset-happy; to fitting extra-large women in extra-size corsets—up to 36.

No longer need a woman wear corsets in size 30 when her figure calls for a 36.

No longer need she pay a fancy price for corsets made to order; nor sacrifice her shape, comfort and health by wearing a corset so wide open at the back that it is distorted on her figure and doesn't fit right anywhere.

This is a New and Much-Needed Special Corset-Service

For tomorrow, our first "Stout Women's Day," in addition to full lines of all Nemo Corsets in regular sizes, we have the following popular Nemo Self-Reducing models in large sizes:

NO. 327 DUPLEX BACK \$3.00
Sizes up to 36
NO. 506 INCURVE BACK \$5.00
Sizes up to 36

Don't miss "STOUT WOMEN'S DAY." Our expert fitters will undertake to give symmetrical, youthful lines to every over-size figure.

TRINITY BIBLE CLASS

(P. V. D.)

The big class registered 147 men Sunday morning and was a gain over last Sunday, but not as much as was hoped for. Some of the fellows were evidently afraid of over-crowding the room and did not work as hard as they might. Look out for next Sunday as everybody has promised to get down to business.

The Pigeon Singers sang a fine selection entitled "I Am A Pilgrim." Mr. Edwards is singing baritone in the place of Mr. Miller who is unable to be present on Sundays. He has a fine bass voice and understands music thoroughly, making a lucky find for the singers.

The lesson, "Christ Crucified." The teacher started by asking for the correct date of the crucifixion. Ed Campbell claimed he had good authority for the date of April 5, A. D. 30. When asked to quote his authority it developed to be Park Mills, who was giving Ed a wrong steer. Mr. Roberts, a dead shot on dates, came across with the

right one, giving April 7, A. D. 30.

Prof. Finney asked the question, "Could any of the old Prophets, including Abraham, Isaac, Jacob and others have died for the sins of the world?" This was a new thought and it was shown that it must be a person blameless and without sin and since all these sinners would fill the requirements. The teacher quoted from John the Baptist, "Behold the lamb of God that taketh away the sin of the world." This brought on a discussion of the Advance sin, Mark Crawford wanted to know if there was any place in the Bible that teaches the Advance sin and asked if it was right to be charged with it.

Prof. Appel made a nice talk on this point and stated he had written Bishop McConnell concerning this point but had never received a reply.

Prof. Finney took the affirmative side of the question and made some strong points in his defense. He said the Bible taught it and no man had the power to change the

plan of salvation. No covenant with God can be made with Christ left out.

The teacher then took up the main part of the lesson, dealing with the Crucifixion itself. This method of putting to death was the one used by the Romans on the worst criminals. He described the awful suffering and torture that this fearful method inflicted and forcibly impressed it upon the class that it was all for us. To the spectator Christ on the cross was a sure proof of overwhelming defeat, little dreaming that he was redeeming a lost world and shaping the destiny of this earth down through the ages to come. Rossau, the great skeptic, said: "Socrates died like a man but Jesus Christ died like a God." And that old Roman Centurion used to the sight of bloodshed and death, said: "Surely this man was the Son of God." The spirit of the cross is sacrifice and self-denying service.

The question, "Did God forsake Christ on the cross," caused a wide difference of opinion and the time having expired this question will be discussed next Sunday. There is some heavy work on both sides and this promises lively times for next Sunday morning.

Notes

Prof. J. H. Cook, superintendent of the Circleville schools, was a visitor at the class. The professor never misses a session when in the city over Sunday.

The name of Annus was changed to Annus in last Sunday's account and led to this writer's discomfiture before the class. Prof. Finney and Prof. Appel put on the stage work and no use adding it was well done. Major Harry Siskles very gallantly shouldered the blame and says he had just finished reading one of Teddy Roosevelt's editorials.

The following were visitors: W. T. Stephenson, Parkersburg, W. Va. W. A. Elrey, Delaware, Ohio. Prof. J. H. Cook, Circleville, O.
